## Telescope Floor Lamp

FL20

Collection Name

**CONTOUR COLLECTION**

Drawing on the aesthetics of a classic navigational telescope, the segments of this lamp are set at a fixed height to sit perfectly beside seating areas. The sweeping curve of our new Telescope floor lamp brings the lampshade down to the optimum height to softly illuminate at seated eye level and bring your world into focus. We recommend using a Cream Card lining on your lampshade for the perfect glow. Please note this floor lamp is not extendable.
